Sublimation SBLY-98412

Product Description

Heat-transfer printing or dye sublimation is the best way to display full color printing. The heat transfer style of lanyard is perfect for complex designs. If you have complex graphics with lots of colors, these full color printed lanyards are the ideal choice to fully realize your design's potential. This printing method dyes the design into the fabric through a heat press rather than printing on top like the silk-screened styles. These lanyards are made from polyester threads, and the texture is completely smooth and soft due to high temperatures pressed onto them during their manufacture. We can print QR codes on this lanyards.

- Minimum order quantity is 100 pcs.
- Standard Turnaround is 10 business days for production and 4 business days for shipping after proof approval.
- RUSH service Available from 8 to 13 Business Days.
